

25 July 1974

MEMORANDUM FOR: Ruby *[initials]*
Mr. *[redacted]* 25X1A9a
Mr. *[redacted]*

SUBJECT : Identification of 3 Points in EUR for *[redacted]* Position 25X1A6a

- 25X1A9a 1. The Form 1150, Notification of Personnel Action, came through on *[redacted]* effective 21 July 1974 assigning him to the GS-09 position in 25X1A6a *[redacted]* without OF telecord. We did agree that we would let him be assigned to that position if EUR would supply 3 points to upgrade it to GS-12 on an incumbency allocation until more definite action could be taken on the grade level of the job. *[redacted]* that he would supply the 25X1A9a points.
2. I checked with PMCD this date and was informed that EUR had not yet supplied the points. I checked with *[redacted]* EUR/Pers, who stated 25X1A9a that they are trying to come up with the points but that "these things take months". He advised they did not have a "pool" of points. I asked him if DDO/CMG had such a "pool" and he stated he didn't know but that the identification of these 3 points would require numerous memo's between DDO and EUR. 25X1A9a He advised the final decision would be up to *[redacted]*
3. I believe a call from EO/OF or DD/Fin would convince *[redacted]* 25X1A9a that we need to get these points identified and the position set up as GS-12 (even based on incumbency allocation) ASAP.
